### Class Approvals

## COMPANY PROFILE:

GSM Inspection Services was Established in 2005, which was registered under the company act (India).

GSM Inspection Services Provides Ships Survey Specialists to the marine industry.

NDT Inspection and PWT, oilfields and General Industries world-wide. These services include techniques performed by highly experienced professionals, which are all in accordance to top quality standards and are endorsed by many classification societies worldwide. we have carried out many inspection and NDT surveys for well know companies all around the world, and we will continue providing world wide services 365 days a year. 24 hours a day Offering riding squad services for international clients. Specifications and steel renewal calculations ensure client satisfaction to the maximum. With the latest Multiple Echo through coating ultrasonic equipments of Olympus/Cygnus and mobile workstations, our experienced riding squads with CDC, completes CAS/CAP/ Special Surveys and reports during voyage in record time.

Our sailing squads are with valid CDC, US, UK, Singapore, Schengen, Australia, China, New Zealand Visas which enable us to mobilize them to any part of the world at very short notice.

GSM Inspection Services currently operates at Chennai (India) and Kingdom of Bahrain (Arab Ship Building and Repair yard & Co.) employees are more than 25 people. We offer highly trained and diverse personnel, from certified inspectors, AUTO CAD draftspersons and reporting specialists to quality, information technology (IT), marketing, and corporate management. Our technicians have extensive experience and expertise in the field they work in, including in-depth knowledge of industry practices and regulatory compliance requirements. Some of these include marine classification society rules, building codes, materials and welding codes, international, federal, state, and local regulations, etc.

Our core values are safety, quality, and integrity. We focus on delivering a total solution to any inspection needs while integrating our services with our customer's operations and schedules. We learn about your business and needs first. We then combine the latest NDE & information technology along with our vast personnel experience and know-how to provide safety-focused, high-quality, accurate, and cost-effective inspections, surveys and computerized print and/or electronic reports.

GSM Inspection Services continuously updates NDE equipment and network information technology and promotes ongoing education of personnel at levels. All technicians are certified to Levels I, II, or III in accordance with SNT-TC-1A of the American Society of Nondestructive Testing (ASNT).

GSM Inspection Services has ASNT-certified Level III personnel and Certified welding Inspectors (CSWIP, AWS CWD) on staff for job evaluation and project management.

## Quality Policy:

It is the policy of GSM to achieve the highest level of standard, honesty and integrity of professional inspection services in a safe and consistent manner that meets the customer's needs and expectations. We are committed to the continual improvement in quality of our services and to the development of our employees at all levels
