*News Release*

## **Metals Testing Company now provides Ultrasonic Testing & Passivation Services for Sikorsky Parts**

Metals Testing Company (MTC) is now approved to provide Ultrasonic Testing (UT) for Sikorsky Aircraft Corporation related parts. MTC has also recently added Passivation capabilities for Sikorsky Aircraft Corporation related parts.

MTC, located in South Windsor, CT (USA) provides NDT laboratory inspection services to various markets ranging from aerospace to automotive industries. Their in-house capabilities include immersion and contact ultrasonics (UT), chemical etch and etch anodizing, fluorescent penetrant inspection (FPI), and magnetic particle inspection (MPI). With regard to aircraft engine manufacturers, MTC is one of the few approved independent laboratories in the world for providing Blue Etch Anodize (BEA) inspections.
